At. Post Mehkar District Bidar

## SUMMARY

"Seeking to apply my 1 year of professional experience at PCS Global in a dynamic organization where I can continue to grow, contribute meaningfully, and align my skills with the company's objectives for mutual success."

## EDUCATION

**Gulbarga University**
Bachelor's Degree in Computer Application
2020 – 2023

**Palle Technologies**
Java Full Stack Trainee Engineer
April-2024 to October-2024

## SKILLS

- **Java**: Proficient in Java programming for building robust, scalable, and maintainable applications using both core and advanced features.
- **Object-Oriented Programming**: Strong grasp of OOP concepts including Encapsulation, Inheritance, Abstraction, and Polymorphism for clean and modular code design.
- **Spring & Hibernate**: Skilled in using Spring (Core, MVC, Boot) for enterprise-level development and Hibernate for seamless object-relational mapping and database interaction.
- **API Development**: Experienced in designing and developing RESTful APIs using Spring Boot for scalable and stateless communication between services.
- **Web Technologies**: Knowledgeable in HTML, CSS, and JavaScript for building responsive and interactive front-end interfaces.
- **Databases**: Proficient in MySQL for writing complex queries and JDBC for connecting Java applications with relational databases.
- **Version Control**: Competent in using Git for source code management, collaboration, and version tracking with tools like GitHub or Bitbucket.

## PROFESSIONAL EXPERIENCE

**Java Developer**
PCS Global | 2024- Present

- Developed and maintained pcsglobal.in project.
- Built and optimized web applications using Java, J2EE, Spring Boot, Hibernate, and MySQL.
- Designed, Tested and implemented secure registration and authentication systems.
- Worked with UI technologies (HTML, CSS, Jira, Selenium, JavaScript) for an enhanced user experience.

## PROJECTS

**PCSGlobal.in**

- Developed a web-based application for PCS Global to manage interview scheduling, test correction, and student activities.
- Used Core Java, JSP, Servlets, HTML, CSS, JavaScript, JDBC, and MySQL for full-stack development.
- Designed and managed MySQL database to handle user data and application processes.
- Involved in testing, debugging, and resolving system issues to ensure smooth operation.

**Skillgun.com**

- Developed a web-based application for Palle Technologies to manage interview scheduling, test correction, and student activities.
- Used Core Java, JSP, Servlets, HTML, CSS, JavaScript, JDBC, and MySQL for full-stack development.
- Implemented student features like interview applications, call letter downloads, and result viewing.
- Enhanced overall efficiency and user experience for students and employees.

## CERTIFICATION

- Java Full Stack Trainee Engineer - At Palle Technologies
